Part 2. 6 Aust - The East of Aust.

1) Explanation: Only 5. & col. settlement. Dutch knew about it, but didn't col. it.

1605: Jansz, a Dutchman, explored N. Coast of Aust.

1605: Torres a Spaniard, finds a gap between N.E. & Aust, called Torres Strait

1642: Dutch, Abel Tasman, sails down W Coast; along S coast; around Tas, which he called Van Diemen's land; sight N.Z.; come back through Torres St. to Java

Dutch ∴ saw less attractive part of Aust, on missed E. coast ∴ decided not to colonise it.

James Cook (1728-79): Sailed on coast of Collier in early yrs, hence became expert at inshore sailing

- 2. In next century a Tyco Way became expert navigat. & map maker. A. Ramo F.R.S. for math. wk. a map maker. Experience mainly gained in Can.
- 1. When in navy, got ideas to preserve health & well-being of crew at sea. Give them things with Vit. C. to stop scurvy - Fruit, onions.
- 1. First Voyage (1768-71): Ship: Endavour, smaller, small, broad, large storage capacity, shallow draught.  
Aug '68 - Apr '69: G.B. - Tahiti to observe Venus  
 Aug '69: Sail S. from Tahiti → 40°S to investigate if there was an unkn. continent in Pacific.  
 Theory: There must be a S. Cont. to balance the globe. ∴ G.B. wanted to before France.

- NB: Tas. might have seen a portion of S. Cont (in Part 14.2). Cook had to find out.
- 'Oct '69: N.I. sighted. Cook sailed round N.I. and S.I., discovered Tas. theory. Reports suitable for habitation.
- 1770: Started for home via Ant. N. to E. coast of Ant just N. of Tas sailed up E. coast, saw it, wrote, named it N.S.W. as reminded C. of N.S.W. Named Botany Bay, noticed good harbour at Pt. Jackson.
- Then → Batavia (Java) → Home.
- NB DuRoi returned even the first time when saw dot, - thought it was a speck.
- 2. Second Voyage (1771-75): Cook took ship G.B.

still wanted to find out if  
habitable South Coast.

Books sent to circum. globe at  
lat 60° S. see if find land mass  
side this. Found if there was I.C. was  
so far S. that not re. any good.

Bea of S. I. Dropped. Took survey  
- was proved.

- 2 Third Voyage (1776-7): Tried to see if a  
N.W. or N.E. pass across top of Am wh.  
if no, avoid C of G. H. & C. H. on esp.  
C rails to pac. Stops at Northsound  
in Torada. Find fur. Take some home.  
Report no part of coast OK for  
" settlement. C goes up coast - Friends.  
1. G. R. out for trapping with - have 2 1/2 lbs.  
2. beat Spanish

through belly, etc. Finds N.W. passage  
rebound. Finds N.E. pass rebound as well.  
Sail S. to Hawaii. Killed - here - 1779  
by native.

Results: (1) Geographical Disc.

- (2) N. 2  
(3) E. Coast Aust. } finds chart,  
(4) Northsound, G. R. } report suitable  
for settlement  
Columbia.

1 Dropped (2) Found no large S. Coast.

(3) Found no N.E. or N.W. pass.

2 Helped: (1) Made cartails to Naval hygiene  
& efficiency.

G. R. not keen to expand empire  
1781. But settled about to beat up.

(3) Settle Aust 1782 for Campbell 1782. - 1840

### 3) AUSTRALIA - EARLY SETTLEMENT.

G.B. needed somewhere to send conv.  
Tait Hill, near Nulka Hill. Am. news  
in P. (Georgia). Decided to →  
Kent.

But G.B. reluctant to - also on a new col. off  
Am. W. Inds.

Capt. Arthur Phillip: → Kent Jan 18, 1788.

- 2 Landed at Botany Bay. B.B. not suitable  
as de wrong. Soil infertile, not fertile  
as C said. No adequate harbour.

Went to coast to Sydney. Good harbour  
Founded P.O. Jackson.

Claimed for G.B. whole E. region from Torr. St.  
→ V. Druin Ld.

Early conditions: Difficult to transport & manage  
get out of hand. To offset this, a

1. 17000 convicts  
2. 512 men } convicts  
188 women }  
200 women.

3. Some had not committed major crimes & pockets  
chiefs through hard ship.

stream of ordinary immigrants was  
needed - not till 1821 did G.B. Govt.  
allow this

In 1821, pop of Kent: 24,000.

1,300 free inqs.

9,500 convicts.

3,250 freed prisoners, emancipists

also econ. diff. Ignorance of chin  
etc caused failure of early harvest.

Took 5-6 yrs before produced enough  
corn for own needs. Frequently on edge

of starvation, relied on G.B. relief ships  
Still depended on G.B. for manuf.

Conv. had to do the hardest jobs: Road  
making, making harbour at Sydney. Hired  
out to people who'd bought lands.

Emancipist

Soldier

Immigrants

Philp hoped that Govt would vent  
V.E.L. in there, but <sup>Govt</sup> not interested -  
developing Aust. Phil thinks more could  
be made of it. Ph. encouraged ems to  
stay on, wanted to see Aust  
develop as a colony

### 3. MACARTHUR & SHEEP FARMING:

John Macarthur <sup>from Cape York</sup> in Aust. Do better  
than G.B. sheep. ∴ builds up flock.  
Goes to London in 1805 ems awarded  
some to a duel. Thoms mairino  
sheep to exp. Says good give him  
5,000 acres & 30 convict shepherds  
in Aust. Wool becomes Aust staple  
industry. Expts when penetrate N.H. to  
with Murray-Darling Bas.

Kept order by U.S.W. Corps. Bigger crops  
than ems with Black markets

Wool builds up ind.  
Expt builds up pt. Jobs.  
Money comes back. Farmers spend  
it on things.  
∴ Balance of comm.  
Stimulates ag. & ind.

NO Captain Stirling 1806-08: Big Squatter & NSW  
maintained, ems tried to strike up for ems  
squatters.

Lachlan Macquarie 1809-21: think Aust  
can be used to ref. ems. if return  
as ems. ∴ encourage them to stay  
on but did not em. immigrants

1811: Gregory Blasland found way over  
Blue Mts to grazingland. Also showed the  
Mac built road as soon as possible & ems flow

1821: 175,000 lbs wool → G.B.

1830: 2,000,000 .. → G.B.

1850: 39,000,000 .. → G.B.

10  
to get land. Inactive on G.A. had  
economical wars after Nap War  
increased free settler num. During  
1820's, no. of free settlers exceeds  
emms.

1821: Govt took off emm. res.  
Sir Thomas Binalone (1811-6):

Imp. development.

1821: G.A. lifted restrictions on emm. Govt  
glad to get rid of redundant people.

80% of worst of N.S.W. criminals to  
Norfolk Island + V.D. land. N.S.W. then  
have better chance of dev.

2<sup>nd</sup> Legislative Council set up in 1823.

Mem by crown to advise the Govt.

V.D. land given over to Govt + commit.

1st step away from military rule to  
Rep Govt. Instead of martial law,  
had Trial by Jury.

11  
think that later on will be completely  
separate.

### ③ Problem of the Squatters:

(1) Limit of Settlement. 1829. 150 mile radius of  
Sydney. Within this limit, could lease  
own land legally.

Outside, squatted it, no legal claim to  
the land occupied.

Diff.

(2) First people monopolise all go. land

(3) Labour hostages all people equal,  
not want to work for other people - be  
their own master

(4) 1831. All land owned by crown. Squatter,  
if wanted to stay, had to pay 5/- per acre.  
Could not afford this. Partitioned land for

expensive

- (c) In 1836, granted 5y. licenses. had to pay  
1. £10 p.a., then could graze sheep.  
if someone wanted to buy it, then  
had to shift - no security
- (d) 1867: E. Grey's Waste Lands Act:
1. Licenses increased to 16 yrs.
  2. At expiration, say, given first chance  
to buy land at special price.

### 3. AUSTRALIA - the organization of states.

#### 1. Exploration:

1. Charles Sturt (1818-30): - Crossed 56. Div. Range  
Sailed down Murrumbidgee, Murray,  
Darling. Hopes will go west to inland  
see W. But comes out c. L. Alexandria.  
Discovered n.m. remnants
2. Gov's wanted imp. gov so could deal with  
land probs themselves - backbone of econ - sheep.

- go grazing W, but his theory disproved
2. John Eyre 1840 - Goes N. from Adel, finds  
3 lakes, Torrens, Gregory, Eyre. Finds  
W. flowing river from Q'ld → L.E.  
But Salt lakes. Thinks no freshwater  
lake etc c. Cen Aust, but fertile desert
  3. Sturt (1826-5). Wanted to go from Victoria →  
inland, check what Eyre had found. Informed  
this.
  4. Burke & Wills (1860-1) Took exp. from Mel, aim  
to cross Aust NS → Vank. find what lake  
A.H. to cross, but both died. Ill prepared to get  
across first.
  5. McDonald Stuart (1862): Made 1st well.  
S → N crossing of Aust. Scientific exp.  
Confirmed Aust desert.

2 The Division of NSW: Big, & cent. A's  
sqrs get scattered about, diff to gov  
sub-division probable.

1. V.D. land - 1825:
2. Q'land - 1859: Dis. estd 1825. Darling  
downs attract settlers = exp. Distance  
too gt to be gov. from Sydney.
3. Victoria - 1851. Melbourne f'd 1837.

Settlement begun 1836. Sheep & avable  
farming. Agitator for ind. p. Gets it 1851.

W. Aust.: not survey by Capt. Stirling.  
Govt not keen to colonise. Still not  
keen to col after Am war of ind. p. Allow  
group of settlers to colonise S.W. corner.  
No cons. Free col. Land cheap.  $\$3$  minuted  
& public projects - 100 acres of land, i.e.  
bring out tools, cattle etc, these valued

2. Dis 1827

Transportation ended to V.D.L. = 1857.

Became Tasmania 1856.

1. Around R. Swan.

given their vol = land. Keep tools.

Settles flock:

- 1. In 1821, 4,000 had been to 1,500.  
1840, 2,300.

Almost packed up. What went wrong?

- 1. Land here fertile inland than on coast.  
No mops.

- 2. Because too cheap, settlers buy huge bits  
of land.

e.g. Thos. Peel - 250,000 acres  
Stirling - 100,000

∴ population dispersed - transport &  
wade difficult. Any kind of cooperative  
activity diff i.e. schs, churches. Because  
land so cheap, all people get land.

- 2. No labourers. ∴ c. 1849, cons sent out

1. Not called Swan R. Col.

- 2. Land uncultivated - waded

for labour, went on till 1869. Built up prosperity. How not to org a col.

4. Edward Gibbon Wakefield & his Colonising Ideas: S.W. a radical like Dur. Believed S.B. col emp. unlike gov. Wants to enc. cols, give them self-govt, in return, as soon as possible.

Int: Aust cols studied it while in Newgate Jail, 1829. Wrote Letter from Sydney. Supposedly come from Aust. Wrote idealising trans of conv. 807.

(i) free sett. badly org.

(ii) Key thing! Too easy to get land: → dispersal of settlement & shortage of labour.

Solution:

Land sold at a "sufficient" price i.e. higher than usual. Vary from col to col as land different. Much more than 50 an acre. S.W. suggested £1 p. acre.

∴ rich buy land, but not more than could use. Poor would have to work for with & save till they could buy. Price must not be so high as to

discourage poor

But Solves prob. of land waste & lab. shortage

1. ∴ farms smaller & more productive. People live closer together ∴ communit. possible & all amenities

2. Use money from sale of land to subsid pass to Aust for selected immigrants.  
Commissioners in Land give good

people subid. for passage.

All cols should have resp govt as soon as pos

Ideas spread by Colonists. Soc found in 1830. Ideas on land sale & assisted imm used.

In NSW, price of land ↑ between 1818 & 42.

In Natal, S.A., operated subdivisions in 1849

5 S. Australia: In 1834, S.A. Soc found to col S.A. on G.W.'s scheme. Given a Govern. Commissioners set up in London to deal with land sale & choosing immig. S.W. fell out with S.A.S. He wanted 2 p. acre,

they wanted 1/4. Fixed at 1/4. G.W. resigned.

but settlers 1836. Trouble. Hindman 1st gover. sold up land not surveyed. Gwaler had <sup>capt G.W.</sup> ~~surveyed~~ <sup>surveyed</sup> ~~settlers~~ <sup>settlers</sup>. Went bankrupt. Gwaler a scapegoat. he gov 1838-41 and settlers stay = Adel. while land surveyed. Spend money. Govt George Grey sent out 1841. Organize things better. Speeds up surveys. Sends people out to land. 15,000 imm. By 1845, col on its feet. Grey → N.Z. Resp Govt 1855.

Shows G.W. ideas gov. things that went wrong not his fault.

6 The end of Transportation: Why?

Two cheap labour, good way for getting rid of them.

Reasons:

- i. In S.B. Peel reforms. Penal Code. Abol. alot of laws & penalties, ∴ people want = 1830s real bad criminals. Austs. not like it. Want it stopped.
- ii. Humanitarian protest ag. cruelty. Long journey. Bad ships. High death rate.
- iii. Free settlers dislike it. Gov. labour keeps wages down. Cons prepared to whip for small wages than free settlers. ∴ f. s. paid less.
- iv. Austs see never met self-govt as long as cons sent, but would always need govt supervision.

End. up to NSW - 1860

PART II, VII. New Zealand.

- i. First Settlement: Discovered by A. Tasmans 1642. Cook maps it, 1769-70. Said suit. for Colonisation but natives warlike & intell.
- The Maories: Came from Society Is. Polynesia. Drifting to NZ since 10th c. Main Fleet 1750. Most crimes take name from names of fleet. Did go on purpose? ~~Accidental~~ Drifted by accident. Dot Zealand. Tribes compete for best land in N. Fight with spears & clubs. Build Pits (Pou). 1769, pop 200,000. Cannibals' can no more. No large animals. Extinct.

Ma. Eat enemies for protein.

2. Early Settlers: Naval deserters, conv. people  
from whaling & seal hunting & sheep.  
Ships → N.Z. as base for whale hunting  
& seal - off S.I.

Abit of trade. Guns & rum → natives.

Get Flax, Kauri Pine, curios, shark  
heads.

Harmful to Ma. White men violate  
Ma.'s land (Tapei) friction. Fighting  
Guns & rum had demoralizing effect on Ma.  
Now tribal wars with firearms, not clubs etc.  
Some people bothered about it: Miss. Sam.

Marsden. (E.F. Philips) stood up for natives.  
Wanted to stop European's exploiting natives.  
Two suggestions:

S. Aust Co founded by G.W. 1836

1. Govt. - stop any more white settlers  
2. Govt. should ann. N.Z. & enforce laws  
over - protect the Ma.

Govt not willing. Not allow any  
large settlement effort. In 1810-18  
discouraged formation of colonies in

3. Annexation & Settlement:

1838: G.W. founded N.Z. Co to settle  
N.Z. acc. to his ideas.

In 1839, 1,200 settlers sent out. Forces  
govt to act. Miss. have said for ages  
ann. to stop bloodshed. put N.Z.  
under jurisdiction of N.S.W. Sent out Lt. Gov.  
Capt Hobson. N.Z. ann by G.B.

Hobson's dilemma: W.G. = Sett. Think  
Ma's miss. want their land easily  
to ann out of expense & trouble had  
little commercial value.

In 1817, G.B. sent put under notice  
power of Gov of N.S.W. Little use. Distance

quicks.

(2) Māori org. large scale settl. No more sett. Must see Māori not cheat & driven off their land.

How - need to look after well. Create a plural soc. Must set up system of land buying & selling. Soli. settlers & Māori

6. THUS Feb. 1840: Treaty of Waitangi  
Hobson's offer - sovereignty of CU + protection

Māori Debate

Conservative - white man not needed - no deal - throw him out.

- (a) Railways needed for: (1) Open up prairie for USA  
(2) To make a market for  
(3) To link provs together  
Would not benefit N/P land.  
Would be no exp't that must be collectively  
financed. Had to confed. to finance why  
(b) Firm united stand against USA needed -  
Confed → stronger force for defence.  
(c) Solve point conf. i.e. U.C. & L.C. - as U.C. & L.C.  
separate provs. Could keep separate identity

- b) 1842 - Influenced by Durham Report, large mass of rep. govt given to N.S.W.\*  
Comm. Resembles 1840 Resum. Act in Can.  
Don't give rep govt :-
  1. Colony still undeveloped, not enough people.
  2. G.B. still doubtful about rep govt - views change after Ely in Canada.

### c) 1850 Act:

- i) Victoria separated from N.S.W. in 1850.
- ii) Rep govt given to:
  - i) S. Aust
  - ii) Confirmed to N.S.W.\*
  - iii) Tas
  - iv) Victoria

Constitution resembles Can. system in many features, but State of Australia more than Canada is OSA

e.g. In Can, Fed Govt defines what prov. govt shall deal with keep rest

in Aust. States define F. Govt's power, keep rest for themselves

(1) In Aust, Senate elected for 6 yrs period, in Can, nominated for life.

(2) In Aust, each state has its own

49  
governor i.e. semi-independence. In Can, the provs have Lt-Govs, appointed by GG

(4) Aust Fed - designed to bring similar law peoples together.

Can Fed - keep dissimilar people apart under strong authority

Because of increase cost of Govt expenditure, and Govt has become more imp. than States.

Part 2: 1. The Empire At War.

1. Imperial Co-operation in the War.

(a) Imperial Importance of the War.

"The Dominions plunged into the war  
as Dependents: they emerged from it  
as Nat." - Sir T. A. R. Marshall.

Was speeded up & change in  
Emp. & Com.

At budget end, G. B. possessed col.  
depts etc. By 1900's, centre of act of  
N's.

Col. & Imp. Conf. was meeting of G. B.  
& Dams etc.

2. But, D's had no say: whether G. B.  
should have entered war. Could  
have left common empire. But didn't
