1113/2*3 submitted together. Action is required on 1113/2.

The usual aide-mémoire will presumably be suitable and I don't see way it shouldn't include the tentative enquiry in parallel of the despatch to ourselves. The aide-mémoire should perhaps however be taken down and discussed with, say, Hornbeck. I am not for example altogether sure what is involved in internment under U.S. "auspices".
