I think the important thing is to get the decision

rather soon about the general

position. If we get this, then

the question of reclaiming the

payments already made by

Imperial Airways after June 26

1938 can probably best be

dealt with directly between

Imperial Airways & the Customs.

So I was stop the work

at the moment the first 3
days. Oct. 17.3.

[OVER.]

Mr Hoyer Millar.

I quite agree that it is much sounder to get the desired answer as to general policy first. Do you think it would annoy the State Dept to the extent of causing further delay by inserting at x (right hand bottom of page 2) the words "for almost two years now" or some such phrase -- merely to rub in the delay. Actually the concession was granted by us in July 1937. But I do not feel strongly about this.

I have added the

words for a consideration

time past.
