

Minute Sheet.

Mr. Burrell

20. Newfoundland have not

yet commenced in the revision letter about

the Newfoundland base. It can

therefore now go in to Navy Dept (it's

being typed out now).

I suggest you might so

inform the Director accordingly that we

have been promised another ^{copy} / tel - from

London about the other bases that will

pass this on to Navy Dept as soon

as possible. I think you will wish to

be aware of some colonies or

which delay is bound to be caused.
