

Jemson Clark's Motion

to appoint a committee to investigate propaganda.

✓ attach (a) a draft dep.

to the T.O. reporting the motion, and

(behind)
(b) a memorandum on German propaganda

to be "planted" if this is considered desirable.

✓ think if we send Th. Fletcher a

copy of (a) this will be enough

to warn him that if the resolution

is passed he might have to lodge

some of his archives with the

Comulate-General. (b) is a

re-hashed and up-to-date version of

a memorandum on channels of German

propaganda prepared last December. I

have concealed any evidence that might

[show

show that it originates here.

I have extracted \textcircled{C} of the
moment. Helmer is already
registered under the 'propaganda
act' but has always been
referred to that law on some
occasion the Air Cdr. might want
to examine him & his archives. I
do not think that is necessary
policy the FBI have nothing to fear or
be ashamed of. But there might be
some evidence with papers which
we not prefer kept hidden.
