SECRET

November 8th, 1941

gist of Telegram from Former Naval Person to President was shown to me to-day by Mr. Dunn.

F.N.P. states that the big ship is on its way to the East. H.M.G. glad to have found they could do this which they doubted for some time. Presence of big ship should deter the Japanese. The firmer we both are the less likely the Japanese are to plunge in.
