Dear William

-/40 Very many thanks for your letter of the 6th, and for the very interesting enclosure from a Harvard undergraduate.

I am particularly interested in this, as I frequently go up to Harvard, and shall, as a matter of fact, be doing so very shortly. I should like to look up Norris Tibbetts, with your approval, and have a talk with him. It is a very laudable project that he has in mind.

Perhaps you can let me know the success of your efforts to find some way of using the services of this group.

*Yours
Jack Wheeler-Jennett.*
